## March Meeting

The HCRA March 4th meeting will be linking packet BBS systems. The speaker will be Phil Gookin, N1DKF. Phil has his own packet BBS in RI and is the President of the New England Packet Radio Association.

In addition to a brief overview of packet radio, he will talk about the methods used to link packet radios, on both HF and VHF, nationwide and throughout the world.

Please plan to attend this state-of-the-art high tech discussion!

## Novice Class

The HCRA is sponsoring Novice classes, which are being held at the Agawam High School in Agawam Mass. If you or someone you know is interested in obtaining the Novice ticket they should contact Jack LoMonaco, WA1YYK, for further details. Jack can be reached at 413.786.2556.

The HCRA has the full line of ARRL license guides and study materials. These are always available at club meetings, classes, and VE exams. If you are unable to stop by please write the club address and we will contact you regarding delivery of materials.

## W200NY Results

W200NY was operated by members of the Hampden County Radio Association, Inc. for one week from 6-Feb-1988 through 12-Feb-1988. The HCRA club station W1NY was authorized to utilize the digits 200 in celebration of two-hundred years of the U.S. Constitution. We are honored to be one of 199 stations in the US to participate in this event, which continues through December 1988. The issuance of the special call sign was made possible through the efforts of the ARRL. Special call sign requests are not normally accepted by the FCC.

W200NY operated from the town of Agawam, Massachusetts, located in FN32 (42°N 72.5°W). Agawam is on the west side of the CT river opposite Springfield, in the western part of Massachusetts. Springfield also recently celebrated its 350th birthday.

W200NY operated both CW and SSB on the HF bands using a Kenwood TS940S, Yaesu FT757GX, and Drake TR7. A Heath SB220 and Drake L4 amp were also used from time to time. A TH5DX at 20m was used on 10, 15 and 20 meters; a four element wire beam fixed west was used on 40m; an 80m vertical and dipole plus longwires for 80m, and a dipole was used on 160 meters.

On 2m SSB we used the W1NY VHF contest station consisting of a Drake "C" line plus transverter with the N1DPM "White Tornado" KW amp fed to four yagis at 33 meters. A variety of FM equipment was used on 2m, 1.25m and 70cm.

A portable ATV station was setup by WA1HFF with assistance from AC1T, with a number of local two-way ATV QSO's. A 70cm EME station was setup by NC1I using much of his home station and the infamous four K1FO yagi portable EME array, which has been on DXpeditions to VT and RI.

W200NY operators attempted to reach as many hams as possible. Thank you for being patient in the pileups, as operating under those conditions were new to most of us! We checked into nets, ran hours of pileups, and even gave out points in a contest or two...

After the week was done we found one large stack of logs... with 3,800 QSO's, 119 DXCC countries and a WAS. We will QSL 100% and hope to receive as many in return for club awards.
